**New Year release**

Futuristic concrete arch construction of the fifties. Can be viewed from either inside or outside. Due to size, only two bays (16") of the building are included, but a CD-ROM is available to enable extra parts to be printed. These provide all you need to build the full nine bays of the original. Only suitable for the experienced modeller – build MA, K and PM to gain experience! Price: TBA

**WR Windsor.**

The bus station was a hub of country bus and Greenline coach operation. 20" wide. Price: B (£12)

**Leslie Green Tube Station.**

A large range of parts which can be built up in different ways to build many of the variations of this style of station. Just a frontage – side walls and roof to be provided by the builder. Kit can build two or three models. Ticket machines and variety of station signs included. Price: B (£12)
